

COMPANY OVERVIEW

Earth Coast Productions is a strategic media and event production company. Since 2011 we have helped organizations plan, produce, and share their stories: media strategy and full campaigns, video and podcast production, custom digital platforms, and the live events, livestreams, and AV that bring people together. Every event doubles as a production studio, so one budget delivers the gathering and months of content after it. Colorado small business, delivering nationwide.

CORE COMPETENCIES

- **Media Production and Video Production:** Training, explainer, documentary, promotional, and interview video
- **Media Strategy and Full Media Campaigns:** Planning, content calendars, multi-channel campaign assets
- **Event Production:** Conferences, town halls, leadership summits, ceremonies, outdoor events
- **Livestreaming and Hybrid Events:** Multi-camera broadcast, remote presenters, ECP Live virtual venue, custom interactive platforms
- **Audio Visual (AV) Production:** Audio, video, lighting, staging, presentation management (ECP Lectern)
- **Podcast and Training Content Production:** Studio and on-site podcasts, course and training modules
- **Post-Production:** Editing, motion graphics, color, audio mix
- **Aerial and Drone (FAA Part 107):** FAA Part 107 certified aerial video and photography
